## OBJECTIVE

Graduate of the University of Hertfordshire, holding a degree in Computer Science. My academic pursuits allowed me to develop expertise in programming languages, including Java, and MySQL. I have gained a comprehensive understanding of Relational Database Management Systems (RDBMS), Object-Oriented Programming (OOP) and other software engineering principles.

Recently finished a twelve-week Digital Skills Bootcamp at Just IT Training. My objective was to enhance my skills and gain a better comprehension of software languages such as HTML, JavaScript, Python, and MySQL. Currently, I am working on my portfolio to create projects using the knowledge I have acquired during the training.

Seeking a junior developer role to gain experience and skills. I thrive in challenging environments that push me beyond my limits.

## EDUCATION

**Digital Skills Bootcamp: Software Development | Just It Training Ltd, London**  
DECEMBER 2023

- A twelve-week intensive bootcamp covering the fundamentals of Web and Software development.

**Bachelor of Science: Computer Science | University of Hertfordshire**  
OCTOBER 2012 – SEPTEMBER 2015

- Core Modules: Further Object Orientated Development, Advanced Database, Empirical Evaluation in Software Engineering, Professional Issues in Computing
- Languages: Python, Java, Lua, MySQL

## EXPERIENCE

**System Analyst | Evergreen Goods Ltd**  
NOVEMBER 2017 – APRIL 2023

- Organising and creating order labels for the dispatch team, enabling them to pick and pack orders efficiently
- Overseeing the dispatch team's operations, offering assistance, and recognizing opportunities for growth and improvement
- Effectively and precisely overseeing inventory movements into and out of the warehouse to maintain precise stock levels
- Perform a comprehensive stock-level analysis of Amazon's inventory to pinpoint any items that require replenishment
- Produced a sales report every 3 months for review with the general manager
- To identify which products, require reordering and those that need to be promoted for increased sales

- Upon receiving shipments, we conduct a thorough inspection to ensure that the contents are in good condition
- We then cross-check the items with the order to confirm their accuracy
- Organised the products, ensuring everything is in its proper place and ready to be used and sent out
- Assist in maintaining a smooth workflow by providing support when a team member is absent.

## CORE SKILLS

- Python
- MySQL
- Bootstrap
- HTML5
- CSS3
- Java
- Organizational Skills
- Critical Thinking
- Time Management
- Communication

## HOBBIES

- Playing Video Games. I enjoy playing video games because they allow me to develop useful skills such as Multi-Tasking, Social Skills, and Teamwork. It is also the main reason for becoming interested in programming.
- Building and upgrading my PC. Through building my first PC, I gained a deeper understanding of technology and discovered a new passion. Inspiring me to keep up with the latest advancements in hardware technology has become a rewarding and inspiring hobby.
